Full-time recreation staff are seeking creative virtual ways to stay connected with the community, preparing to be ready to implement programs as soon as the social restrictions are lifted and are using the absence of program related tasks to cross train with the Support Services dept, taking on work tasks that support the function of the water/sewer and support services depts. Park Maintenance staff continue maintain our parks and facilities and are taking advantage of the facility closures to do a variety of facility improvement projects.

Operational Costs/ Potential Revenue

Using the elaborate USABMX Excel Spreadsheet I entered reasonable estimates for rider attendance, cost associated with hosting the races, and other associated rev/exp. I attached a copy of the spreadsheet, but the below is an overview of the data.

1. Rider count, practices/races, and revenue

| a. | 25 riders per practice night, \$2 per person, 3 practices per month > | \$150 mo. |
|----|---|---------------|
| b. | 50 riders per race, \$10 per race, 6 races per month -> | \$3000 |
| c. | Estimated that a basic snack/drink stand would bring in -> | <u> \$750</u> |
| | | \$3900mo |
| Ex | penses, dues, trophies, utilities, marketing. | |
| a. | USABMX fee, insurance, and data fees -> | \$1200mo |
| b. | Trophies, medals, awards | \$750 |
| c. | Marketing | \$390 |
| d. | Maintenance | \$390 |
| e. | Mics expenses | \$200 |
| | | \$2930 |

\$3900

2.

-\$2930

\$970 potential revenue to put towards rent/lease, utilities, and improvements to the track.

It should be noted that we would hold more races and practices than I entered in the data above. I wanted to give a low estimate and not oversell the program. This also does not include funds that would be generated from the 1 to 2 large state level races that every sanctioned track can hold per year. This is the time that the track gets people traveling from a regional level. Families would be staying in our hotels, eating in our restaurants, and shopping in our stores.

The estimates do not include any type of rent/lease as this has not been established, and it also does not include any utilities as we are not certain what will be at the site. Marketing, maintenance, and misc expenses are probably accurate in the beginning months, but after the track is up and running the maintenance is largely volunteer support, and thus won't be that much of an expense. The marketing is also off set by part of the sponsorships. The package helps fund, but also covers signage around the track. Running a strong social media campaign, which is mostly low cost, provides high visibility.
